

Community Update – August 1, 2016 (Data)

In response to questions and comments received at the community input session held on April 9th, the school district will be providing updates to the community. The purpose of these updates will be to provide information about the school district, respond to previous inquiries, continue to listen to input, and receive new inquiries. The first community update was provided on June 9, 2016.

You may sign up to receive updates directly to your e-mail by visiting the school district website. You may continue to pose questions or provide input by e-mailing Dr. Craig Skaluba, Muncy School District Superintendent at cskaluba@muncysd.org. Input may also be provided at board meetings. Public input sessions are scheduled at the beginning and end of every board meeting. The public input session at the beginning of each meeting is narrow in focus and only allows for comments related to specific agenda items. The public input session at the end of each meeting is broader in focus and allows for more general comments. Both public input sessions are initiated by the Board President. Once initiated, individuals who wish to speak need to be officially recognized by the Board President. Once recognized, individuals who wish to speak must state their name and whether they are from Muncy Borough, Muncy Township, or Muncy Creek Township prior to making their comments. Please understand these public input sessions are designed to let the board listen to comments and it is unlikely the Board will answer questions at the meeting. Instead, the Board is more likely to follow-up with particular individuals, if necessary, at some point in the near future. The 2016-2017 board meeting schedule is included in this update in case you would like to attend an upcoming meeting.

The theme for the second community update is to provide data related to the general overview of the school district's academic, athletic, and extracurricular offerings provided in the first community update. The data provided should answer some of the questions received related to district enrollment, district academic rankings, athletic participation, extracurricular participation, and course enrollments.

1. The Muncy School District Enrollment document shows district enrollment numbers from June 2010 through June 2016. You will see enrollment numbers for September and June to show the difference in enrollment numbers from the beginning of the school year to the end of the school year. Overall, you can see enrollment numbers by grade level and by building level. You can also see enrollment numbers for Muncy students attending Lycoming Career and Technology Center (LCTC).
2. The Academic Rankings for the 2014-2015 school year document shows Muncy School District's analysis of our state assessment data (ex. PSSA, Keystone Exams) for the 2014-2015 school year. The analysis ranks both the high school and the elementary school in comparison to other high schools and elementary schools by grade level for math, English Language Arts, and science. Each grade level comparison compares our schools to other schools in BLAST IU 17, other schools in Lycoming County, and other schools in the state of Pennsylvania.

3. The Muncy Jr. / Sr. High School Course Enrollment 2016-2017 document shows which courses from our course guides are being offered this school year and shows the number of students currently enrolled in each course. Please note that the number of students enrolled in each course fluctuates as schedules are finalized throughout the summer and beginning of the school year.
4. The Muncy Jr. / Sr. High School 2015-2016 Student Participation document shows how many students participated in athletics and extracurricular activities during the past school year. The athletic participation gives both a total number which includes students who played multiple sports and a total number without duplicating students who played in multiple sports. The total number without duplicates shows how many individual students participated in athletics throughout the entire school year.
